Skills

CI/CD	Cypress	Git/Github	HTML/CSS
Next.js	Node.js	React	SQL
Tailwind CSS	TDD	TypeScript	WCAG

Experience

Full Stack Engineer, (current)
Shrood BI (contract)

- Create full stack web apps in Next.js for B2B eCommerce clients doing \$100M+ in yearly revenue.
- Introduce CI/CD and testing with Docker, Cypress, and more, greatly improving quality and turnaround time.

Full Stack Engineer, (2020-2022)
PacRes Mortgage

- Redesign 500-page mobile-unfriendly Wordpress site as Gatsby Progressive Web App (pacresmortgage.com).
- Optimize load time 15x faster on every page.
- Ship accurately & on time with Cypress end-to-end tests & Github CI workflows.

Full Stack Engineer, (2015-2020)
Santa Clara University

- Launch all-new responsive web app to 500,000 monthly users (scu.edu).
- Learn Node to create design system unifying brand in hundreds of thousands of pages (brand.scu.edu).
- Cooperate with department leaders to design pages viewed by millions every year.
